APPENDIX

ASSOCIATION TOURNEFOU ARTISTS-IN-RESIDENCE OUR MISSION

Particularly dedicated to the fields of reasearch and creation, initiator of a new form of artistic and cultural development, the Association Tournefou has a vocation to be a home of confidence for artists who came to experiment an artistic presence in rural territory.

The Association Tournefou, being a pluridisciplinary place of production and exhibitions, also allows the artist possibilities to meet with the population, the environment, places of art and culture and partners of the association's program.

Each stay in residence has its peculiarity, and attention is driven towards two priorities :

- the artist's project, so that he(she) can implement his(her) work in the best possible conditions,
- transmission of the artist's work of art through educational action and mediation in proximity with the publics.

"The artist does not wipe questions to the answers' cloth, he cleans up our apprehension with a confidence duster, removes the mist, relieves a fragment of vision, a tension towards the infinite". Philippe Brame.

A particular attention will be focused on candidacies which consider art as the fondation of our commun future, proposing a resolutely clearsighted and poetic work.

"All those who nowadays fight for freedom, lastly fight for beauty". Albert Camus
